Integrated community care to promote healthy ageing

Friday 16 June 2023, 10am - 3.30pm

[Room 2.16, Dame Margaret Barbour Building,](#)

[Newcastle University, Wallace Street, Newcastle upon Tyne, NE24DR](#)

About this event

A full day to learn from current researchers and practitioners on the outcomes from research, up and coming work and local priorities. In addition, interactive sessions to co-produce key research and evaluation questions for the future.

Who should attend?

This is an inclusive event which will bring together a diverse range of individuals with an interest in healthy ageing and integration of services across the North East and North Cumbria (NENC). Academics, researchers, practitioners, voluntary sectors and members of the public with an interest are encouraged to attend.

PROGRAMME

| | |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 09.30-10.00 | Registration and Coffee |
